**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. Claims 1- 6, 8 - 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bowman (#6,604,674) in view of Weder (#442). Bowman discloses a wrap and method comprising: a sheet of material that has intersecting lines, a folding sequence corresponding to a pre-determined shape for the wrap which comprises an appearance of being wrapped by hand. Bowman shows a single sheet of material with visual indicia arranged to illustrate the folding sequence as well as fastening means to overlap portions. Bowman appears to show a transparent outer wrap as well as a translucent inner wrap as claimed. Bowman discloses As stated in the previous office action, examiner takes official notice on scoring sheets with metallic dies. Since applicant did not traverse this rejection, examiner admits this limitation as admitted prior art. Bowman does not disclose the wrapping material to be used for a flower wrap as claimed. However, Weder shows a sheet of material with an unfolded position fig 1 and a second folded position fig 3. Weder shows a plurality of lines 28 to fold the sheet in a pre-defined sequence. Weder shows a generally conical shape as claimed. Weder also disclose visual indicia which include printing instructions (col 3 lines 25+) and fastening means 30 as claimed. The indicia 28 directs the operator to provide fold pleats at predetermined portions (col 5 lines 45+) which reads on the markings being arranged to compliment the folded shape of the sheet. Weder discloses that it is known to use dies to form flower wraps (col 1 lines 42+). It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Bowman with a flower wrap

as taught by Weder to form a desired product that is known and within the realm of one of ordinary skill in the art. Regarding claim 6, Bowman shows an open top and bottom predetermined shape when the flaps are not folded as shown in figure 7.

2. Applicant's arguments with respect to claims supra have been considered but are moot in view of the new ground(s) of rejection.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
